DETAILED ACTION

Allowable Subject Matter

Claims 1-20 allowed.

The following is an examiner's statement of reasons for allowance:

The Prior Art does not show a **socket contact** comprising a **box-like base spring** having at least two opposed contact portions attached to a connecting portion and a **discrete backup spring** with arms positioned proximate to opposed contact portions in an overlying manner, and in combination with the other elements of the dependent and independent claim and the Examiner knows of no permissible motivation to combine the Prior Art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
